Project Name	**"Product Positioning & Sales Performance Analysis".**
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

Target User Persona: Marketing & Sales Analyst / Retail Manager

- **Think & Feel:** "Which product categories are underperforming due to pricing?" / "I need to justify our shelf placement strategy with data."
- **See:** Disconnected sales reports and rising competitor promotions.
- **Say & Do:** "Let's adjust the price gap for the 'Young Adult' segment." / Analyses the impact of foot traffic on specific aisle positions.
- **Pain:** Difficulty identifying why certain categories drop in sales during seasonal shifts.
- **Gain:** A clear, visual way to spot market gaps and optimize product placement for higher ROI.

USER PERSONA: MARKETING & SALES ANALYST / RETAIL MANAGER

THINK & FEEL

- Which product categories are underpeforming due pricing?
- I need dor justifly our shelf placement strategy with data

SEE
